

This report has been developed to support the evaluation and classification of products under EU regulation (EU) 2021/2139, Appendix C - Generic criteria for DNSH to pollution prevention and control regarding use and presence.

(a) POP: Persistent organic pollutants

Regulation (EU) 2019/1021 on persistent organic pollutants (recast) : None of the components are listed.

(b) Mercury and mercury compounds

If mercury or mercury compounds are included in the product formulation, they are declared under (d) RoHS.

(c) ODS: Ozone-Depleting Substances

Regulation (EU) No 2024/590 on substances that deplete the ozone layer : None of the components are listed.

(d) RoHS: Restrictions of Hazardous Substances

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment, Annex II : None of the components are listed.

(e) EU REACH Restriction List (annex XVII)

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex XVII) : Conditions of restriction for the following entries should be considered: Number on list 3
Number on list 56: 4,4'-methylenediphenyl diisocyanate, o-(p-isocyanatobenzyl)phenyl isocyanate, Diphenylmethanediisocyanate, isomeres and homologues, 2,2'-methylenediphenyl diisocyanate
Number on list 74: 4,4'-methylenediphenyl diisocyanate, o-(p-isocyanatobenzyl)phenyl isocyanate, Diphenylmethanediisocyanate,

isomeres and homologues, 2,2'-
methylenediphenyl diisocyanate
Number on list 75

The above-mentioned restrictions are adhered to, the product can be used safely in accordance with the safety data sheet and product data sheet.

(f) EU REACH Substances considered to have endocrine disrupting properties or are of very high concern (SVHC):

Substances in mixtures or in an article, meeting the criteria laid down in Article 57 of Regulation (EC) 1907/2006 and identified in accordance with Article 59(1) of the Regulation : None of the components are listed (\Rightarrow 0.1 %).

In addition, the activity does not lead to the manufacture, presence in the final product or output, or placing on the market, of other substances, whether on their own, or in mixtures or in an article, in a concentration above 0,1% weight by weight (w/w), that meet the criteria of Regulation (EC) No 1272/2008 for one of the hazard classes or hazard categories mentioned in Article 57 of Regulation (EC) No 1907/2006, except if it is assessed and documented by the operators that no other suitable alternative substances or technologies are available on the market, and that they are used under controlled conditions.

Disclaimer

The presence of analytical detectable traces of above-mentioned substances which can enter into the product by auxiliary substances or lubricant cannot totally be excluded.

The information contained herein are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. The information only applies to the application(s) and product(s) expressly referred to herein. In case of changes in the parameters of the application, such as changes in substrates etc., or in case of a different application, consult Sika's Technical Service prior to using Sika products. The information contained herein does not relieve the user of the products from testing them for the intended application and purpose. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
