# PRODUCT DATA SHEET Sika<sup>®</sup> Betonlöser

Concrete stain remover for cleaning and maintenance of machines and tools

#### DESCRIPTION

Sika<sup>®</sup> Betonlöser is a strong acidic solution for dissolving and removing cement/concrete stains and crusts.

#### USES

- For the removal of cement, mortar and concrete residues
- Cleaning of mixing and transport equipment

## **CHARACTERISTICS / ADVANTAGES**

- Quick dissolving of cement and concrete crusts
- Penetration of the active substances under the crusts
- Destruction of the crust binding on the substrate
- No attack on rubber parts
- Temporary corrosion protection on steel
- Prevention of new crust formation

## **PRODUCT INFORMATION**

Composition	Phosphoric acid with additives
Packaging	30 kg
Shelf life	24 months from date of production
Storage conditions	Store in originally sealed, undamaged packages in cool and dry conditions. Protect from direct sunlight and frost.
Appearance and colour	Yellow-green liquid
Density	~ 1,3 kg/Liter (±0,05 kg/Liter) at +20°C

#### **APPLICATION INFORMATION**

# **BASIS OF PRODUCT DATA**

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## IMPORTANT CONSIDERATIONS

 Sika<sup>®</sup> Betonlöser is a concentrated, strong mineral acid. Avoid contact with skin and eyes and keep product away from children!

## ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

PRODUCT DATA SHEET Sika® Betonlöser October 2022, Version 02.01 021405121000000001

## **APPLICATION INSTRUCTIONS**

Sika<sup>®</sup> Betonlöser is used concentrated or diluted with water in a ratio of 1:1 to 1:5, depending on the degree of soiling.

The diluted or undiluted product is sprayed onto the surface. For heavy soiling a multiple treatment may be required. Then rinse well with water, especially if used in concrete mixers (may cause change in air pore content in concrete mixes).

# LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

# **LEGAL NOTES**

Any information or suggestions for use concerning Sika's products, which we either in writing or orally have given buyers or end-users of the product, have been given in good faith based on our own experiences and based on approved praxis and the technological and scientific knowledge on the time of giving such suggestions and information, which are given without any type of guarantees, and which do not lead to any further responsibility from Sika Danmark A/S, besides what is stated in the sales agreement in question.
