

# PRODUCT DATA SHEET

## Sarnafil® T Clean

Cleaner for heavily soiled Sarnafil® T

### DESCRIPTION

Mixture of organic solvents

### USES

Sarnafil® T Clean is a cleaner to remove heavy soiling and adhesive residues from Sarnafil® TG and TS membranes.

Sarnafil® T Clean is also suitable for cleaning tools and degreasing metal sheets.

### CHARACTERISTICS / ADVANTAGES

- Dissolves surface dirt
- Evaporates quickly
- Suitable for heavily stained seam overlaps of Sarnafil® T membranes
- Highly flammable

### APPROVALS / CERTIFICATES

- Quality management system EN ISO 9001

### PRODUCT INFORMATION

<b>Composition</b>	Mixture of organic solvents	
<b>Packaging</b>	Canister	2 l
	Packing unit	Europallet or single canister
<b>Appearance / Colour</b>	Red	
<b>Shelf life</b>	24 months from date of production if stored properly in original, unopened and undamaged sealed canister. Expiry date on canister.	
<b>Storage conditions</b>	Store in dry conditions at temperatures between 0 °C and +30 °C	
<b>Density</b>	~0.88 kg/l (+20 °C)	
<b>Volatile organic compound (VOC) content</b>	VOC-CH:	99.85 %
	VOC-EU:	99.85 %
<b>Consistency</b>	Liquid	

### APPLICATION INFORMATION

<b>Ambient air temperature</b>	At least -20 °C
<b>Substrate temperature</b>	At least -30 °C

## APPLICATION INSTRUCTIONS

### APPLICATION

#### Application Guideline:

Based on the valid installation instructions of the relevant roof waterproofing membrane.

Depending on the degree of soiling, the subjected area should be cleaned first with water, brush or cleaning pad. Soak a clean white cloth with Sarnafil® T Clean and then clean the membrane, tool or metal sheet. The cloths should be changed frequently to avoid the spreading of dirt. When cleaning seams a new cloth is to be used. Allow Sarnafil® T Clean to evaporate completely. In seam areas allow Sarnafil® T Clean to evaporate completely before preparing the seams with Sarnafil® T Prep.

### IMPORTANT CONSIDERATIONS

- Avoid contact to materials that are not resistant to solvents.
- In seam areas Sarnafil® T Clean can only be used for cleaning purposes and may not be used as seam preparation. Sarnafil® T Clean reduces the seam quality and should only be used on heavily soiled areas.
- White cloths will effectively absorb dirt and the colour will not stain the membrane.
- Use solvent resistant gloves and eye protection glasses during application.
- Sarnafil® T Clean contains high volatile and flammable solvents. Application in closed rooms is allowed only with sufficient room ventilation. Smoking and open fire are not permitted.

## BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

### LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

### ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

### LEGAL NOTES

Any information or suggestions for use concerning Sika's products, which we either in writing or orally have given buyers or end-users of the product, have been given in good faith based on our own experiences and based on approved praxis and the technological and scientific knowledge on the time of giving such suggestions and information, which are given without any type of guarantees, and which do not lead to any further responsibility from Sika Danmark A/S, besides what is stated in the sales agreement in question. The buyer or end-user should themselves investigate or otherwise make sure, that our products are suitable for the use in question and further make sure that the products are kept and used correct and in agreement with the published rules and considering the actual conditions in order to avoid damages or less satisfactory results. Any order is accepted and any deliverance is affected according to the general terms of sales and delivery from Sika Danmark A/S, which are considered known and accepted, and which could be handed out when asked for. Our catalogues are not up-dated automatically. The present product data sheet is only for use in Denmark. Values stated in the present product data sheet should be seen as recommended, unless stated otherwise.
