

## SYSTEM DATA SHEET

# Sika Comfortfloor® PS-24

Soft-footfall, self-smoothing, low-VOC polyurethane flooring system with optional colour flakes

### **DESCRIPTION**

Sika Comfortfloor® PS-24 is a UV-resistant, highly elastic, self-smoothing polyurethane flooring system with high comfort under feet and soft footfall. It provides decorative design options using coloured chips, aggregates, and other fillers. The System is part of the Sika Comfortfloor® decorative flooring range.

### **USES**

Sika Comfortfloor® PS-24 may only be used by experienced professionals.

Sika Comfortfloor® PS-24 is used in the following commercial and public buildings and areas:

- Healthcare facilities and hospitals
- Schools and universities
- Shopping malls and museums
- Residential areas and homes

#### Please note:

- The System may only be used by experienced professionals.
- The System may only be used for interior applications.

### **FEATURES**

- Decorative design
- Soft underfoot
- Comfortable to walk on

- Low odour
- Seamless
- Low VOC content
- Low VOC emissions
- Good crack-bridging ability
- Good mechanical resistance
- Good resistance to abrasion
- Easy to apply
- Low maintenance

### **SUSTAINABILITY**

- Specific Environmental Product Declaration (EPD) in accordance with EN 15804. EPD independently verified by BRE Global
- Contributes towards satisfying Indoor Environmental Quality (EQ) Credit: Low-Emitting Materials under LEED® v4 — 1–3 points
- Complies with the requirements of DIBt (June 2004) in combination with the NIK values from AgBB (March 2008) for use in the indoor environment.

### **CERTIFICATES AND TEST REPORTS**

- Fire Behaviour EN 9239-1, Sika Comfortfloor® PS-24, Universiteit Gent Belgium, T
- Indoor Air Comfort Gold EN 16516, eurofins, No. IACG-439-01-05-2022

### **BASIS OF PRODUCT DATA**

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

### **FURTHER DOCUMENTATION**

Refer to the following method statements:

- Sika Method Statement Evaluation and preparation of surfaces for flooring systems
- Sika Method Statement Sikafloor® mixing and application

### **ECOLOGY, HEALTH AND SAFETY**

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

### LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.

### **LEGAL NOTES**

Any information or suggestions for use concerning Sika's products, which we either in writing or orally have given buyers or end-users of the product, have been given in good faith based on our own experiences and based on approved praxis and the technological and scientific knowledge on the time of giving such suggestions and information, which are given without any type of guarantees, and which do not lead to any further responsibility from Sika Danmark A/S, besides what is stated in the sales agreement in question. The buyer or end-user should themselves investigate or otherwise make sure, that our products are suitable for the use in question and further make sure that the products are kept and used correct and in agreement with the published rules and considering the actual conditions in order to avoid damages or less satisfactory results. Any order is accepted and any deliverance is affected according to the general terms of sales and delivery from Sika Danmark A/S, which are considered known and accepted, and which could be handed out when asked for. Our catalogues are not up-dated automatically. The present product data sheet is only for use in Denmark. Values stated in the present product data sheet should be seen as recommended, unless stated otherwise.
